the pace of progress in gossamer technology has been strong since the publication of  
gossamer spacecraft membrane and inflatable structures technology for space  
applications in 2001 solar sails are an obvious and public evidence of this trend but  
there have been many other advances as well in structures materials testing and  
systems engineering recent advances in gossamer spacecraft focuses on many of these  
either as gossamer technology that was not sufficiently represented in the previous  
volume or that has had significant growth and activity in the intervening years the most  
accurate and up to date information has been assembled reviewed and presented by an
